

WILL YOU BE HEARD THIS NEW YEAR'S EVE?

Is your business prepared for the upcoming changes to the wireless microphone frequencies effective January 1st 2015?

It will be illegal to use wireless microphones in the spectrum located in the 694-820mhz range from this date.

Why not let us help you through this process.

Take advantage of the trade-in deal whilst still available.

We can assess your current system to see if it's compatible, or provide you with a solution that works for you and your business.

Trade in any wireless microphone system & receive 30% off the purchase price of a new Mipro ACT311 or ACT717a System.
Accessories excluded

WIRELESS MICROPHONE **TRADE-IN**

**30%
OFF**
